

# Today's Clinical Trials...Tomorrow's Breakthroughs

**F**or your patients in need of more options, the National Cancer Institute (NCI) conducts more than 150 clinical trials. In our state-of-the-art Clinical Center on the campus of the National Institutes of Health (NIH), the latest innovations in medicine are put into practice every day.

NCI is currently conducting trials for many types of cancer including, but not limited to:

- Prostate Cancer
- Hematologic Cancers
- Lung Cancer
- Pediatric Cancers

The NIH Clinical Center in Bethesda, Md.
